FRUIT AND NUT TREES, SMALL FRUIT PLANTS AND SEEDLINGS

SURPLUS LIST

TO THE TRADE ONLY

We book all Orders with the understanding that same shall be Void should injury befall the stock from Flood, Drought, Fire, Frost or other causes beyond control.

We exercise the greatest care to keep our varieties pure and true to name, and hold ourselves in readiness at all times to replace on proper proof, all stock that may prove otherwise, or refund the amount paid. But it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price.

The supply of Fruit Trees this season in the nurseries of the Pacific Coast is probably lighter than at any previous time during the past thirty years.

While we have already sold short of some varieties, we are still able to supply nearly all of the best leading sorts in strictly first class stock.

We give in this list approximately the number of each variety our stock book shows we have left unsold on this date. Though when stock is all dug and graded it often develops that we can furnish a considerably larger number than we list. If you are in the market for more stock than we list, write us and we may be able to supply you.

For list of Ornamental Stock, Roses, etc. see our regular TRADE LIST of September 1. Another Surplus List covering that class of stock also will be mailed out in January.

The prospect seems good for a heavy planting of Walnuts and Filberts this year. See our stock of these and Chestnuts before buying.

TERMS as adopted by the Pacific Coast Association of Nurserymen and given in our Trade List.
